Everybody is talking about the draft, and it is no wonder, with only a little over one week to fill quotas in. It seems now as if the city might be cleared, if every man liable to draft will only do his whole duty in the promises. But it every other man gives it no attention, hoping that somehody else will see to it, the quota will not be whereby Hampton Roads was protected, and by his famous dictum that fugitive and by his famous dictum that fugitive claves were contraband of war.

SWINDLING IN PETROLECA OTA COMPAN-128.-Dr. J. G. Holland, the well known author, writes a very interesting letter from Erie, Pa., to the Springfield Republican, in which he reviews the whole petroleum business. We copy the following paragraph which is of interest to persons in this latitude who intend to invest in oil stocks;

"There is a splendid base for business here, and there is opportunity for legiti-mate investments; but I beg all Eastern men who are tempted to invest in petro leum stocks to come here and see what they buy before they buy anything. The most of these stocks are good for nothing. Companies are formed and declare divi dends which have not a single well on their premises. A tract of land is purchased, for, say \$50,000. A company is formed with a capital of a million dollars. dollars. It is accounted lucky, of course,

if there is a well in actual operation on the premises, even if the product is small. It helps to sell the stock. Then the holders rush east to sell their shares. A limited amount is put upon the market, and sold at a low rate, but enough to enable the holders to declare a dividend of one or two per cent. The dividends look in the paper like work, of course, and the shares When at the proper inflation, the original owners sell out, and there is the last of the company. All these stock company operations are not like these, of but the probabilities are that if buyers of stock at the east could see exactly what they are buying, they would not buy more than a tenth part as much as they do now."

His career in New Orleans was beyond all dispute a model of administrative ability. It has re-established the prosper cow." "I'll pay it," responded the possible thing. Gen. Butler has not succeeded in outwitting Lee and Beauregard in his Bormuda Hundred campaign; but

Taking altogether his failures at Big leans and elsewhere, we do not think his connection with this war has been an unfortunate one either for himself or his country. He was no more unlucky in his campaigns of Big Bethel and Bermuda Hundred than McDowell, Burnside, Hooker, Rosecrans, Foster, and other regular officers have been in isolated battles. Perhaps his term of usefulness may have passed. We think it has. The scientific generals who now head our armies understand war practically and theoretically.

But let us not, because we now have generals who fight better than Butler, do injustice to him, or forget what he did for us, when not a man of these scientific soldiers could or did as much. Men like Butler were needed in the history of this war. They had their opportunities, because the republic wanted their services. Their influence and example have proved more salutary in stimulating the regular officers than many of the latter are willing to admit. Hence we feel no rejoicing at

in its policy. CARR OR HENS IN WINTER.-Farmers, as a general rule, neglect their bens in winter. They are left to pick up what they can find about the barn-yard; if they get sufficient food, well; if not, no matter. This is cruel and decidedly unprofitable. If it will not pay to keep them in good

A little light grain of buckwheat, with a few boiled potatoes, turnips, mangel wurzel, or other succulent food he paid by the eggs laid during the win-ter and the spring fourfold. Hens starved during the winter will not furnish many eggs the coming spring.

THE peace rumors continue, and we are inclined to believe that there is something in them. There certainly should be. Each side is tired of the cost and blood of a war which must be closed sometime, and can as well be now as a year hence. There is reason enough why Mr. Lincoln and Jeffs Davis should be anxious for peace. Mr. Lincola must wish in his second term to be acknowledged by all the country, and have that country repair the damage it has done itself. If this can be had—the Union restored, slavery abolished, and the republic ter where they may be tending they will on the track of prosperity-he will win a oventually be seen in the vicinity of Washington's.—Newburyport Herald.

The World's Washington special to-night says: "The President's departure was looked upon in Congress as giving the peace commission a very serious tone, while throughout a very confident air prevailed that it would speedily result in something. The peace commissioners came down this morning from City Point for Fortress Monroe. To-morrow an interview will be held at the latter place. It is well understood that if these gentlemen have peace propositions that do not include the icknowledgment of their independence, they will be immediately escorted to Washington. The impression is hourly gaining strength that these formal negotiations are

paving the way for peace.

The Terms of Peace.

We take it for granted that the statements of the telegraph are true, and that A. H. Stephons, R. M. T. Hunter and Judge Campbell are already within our lines on a mission of peace. Stephens is one of the ablest men in the Confederacy and opposed the ordinance of secession to the utmost of his ability; but when his State of Georgia was swept away from her loyal moorings by the crazy theory of State rights, he went with her, after entering his most solemn protest. Hunter is one of the F. F. V.'s, and as much of a gentleman as it is possible for a traitor to be. Judge Campbell was State Supreme Court, and resisted secession with Stephens until resistance was of no avail, when he resigned his sent and went with his State. These men are new all prominent lights in the so-called confederacy. They want peace, and come with a semi-official endorsement from the rebel chief. What terms have they to of- nois, to Governor Lewis, stating that the for which Mr. Lincoln and Congress can Legislature of his State, vestorday ratified accept? Are they ready to disband the the Constitutional amendment by 100 mawilling to abdicate and submit to the rule of Abraham Lincoln? Are the rebels ready to abandon everything which they | tion on the amendment as that of Illinois. have suffered so much to secure and for which they have so stubbornly fought these four long years? Nobody believes necks are in danger, cherish no desire to and children of soldiers who die in the serhave peace unless it comes with the recog- vice, and to amend the revised statutes recommissioners come from the people, or from the separate States to arrange terms of peace and reconstruction, then there would be some slight grounds for hoping that the visit might eventuate in success; but they come from under the treacherous wing of the great arch traitor himself, and it is improbable to suppose they have any terms whatever to propose which would be incompatable with the current with at

On the other hand, what concessions have Mr. Lincoln and the Congress of the United States to make that would be satisfactory to those who inaugurated this rebellion and have given tone to public opinion in the South? Can they acknowledge the independence of the Confederacy? Neither Mr. Lincoln, nor any member of his cabinet, nor any Union man in Congress has ever seriously entertained such a suicidal thought for one moment. What sacrifices have see not made and are daily and hourly making in order to maintain the integrity of our Government? And if these peace commissioners base their negotiations upon the monstrous proposition of disunion, the conforenco may as well end with an emphatic NO. Neither can Mr. Lincoln consent to withdraw his Emancipation Proclamation and remand back to slavery those set free by it, even for the sake of the "Union as it was." That is as utterly impossible as to consent to a dissolution of the Union.

We cannot see then, what good is to come of these peace negotiations. The war must go on till one party or the other is ready to back square down. It is not to be believed that the rebels are quite ready yet to do so, and we pray that our Government may never be brought to that most humiliating condition.

The Ruling Passion Strong in Beath. No one who is acquainted with the political antecedents of C. A. Eldridge, member of Congress from the Fond du Lac district, will be surprised that he should record his vote against the constitutional amendment abolishing slavery in the United States. Not to do it would be to belie his past history and public career, and so to keep up his consistancy, he enters his solemn protest against the repeal of a system that has done so much to keep alive and foster the kind of democracy of which he is the fit representative and advocate. His vote on this occasion, was not only in association upon the daughter of one of perfect harmony with his own individual our best esteemed citizens, made his wife sentiments and opinions, but he faithfully represented the wishes of a large majority of the district who sent him to Washington. A district so blinded to the rapid progress of the times and to the living issues of the hour as to give such a man as Eldridge a majority of 5,000 votes over take the willful destroyer of womanly in-A. Scott Sloan, might well shudder at the thought of making liberty the fundamental principle of the Constitution; and his constituency will greet him on his return with, "well done, good and faithful servant." As one of Milton's devils said of a similar case, so be it said of Eldridge and those be represents:

find it in our heart to pronounce against the justice of the retribution.—Chicago "Fit subject and the head." As for James S. Brown, of Milwaukee, the other Wisconsin representative who fell upon slavery's neck and kissed it as it was about to pass away forever, as we hope, there is less excuse for him. The people of his district have expressed themselves in an emphatic voice against just such a vote as he cast. Unlike Eldridge, Brown cannot fall back upon his home endorsement to justify his recorded preference for a cruel and barbaric institution. And the loyal people of Wisconsin will rejoice that Mr. Brown soon rotires to the shades of private life, where he can weep in silence over the downfall of American slavery and modern Copperheadism at one and the same time.

Tur Rev. Dr. Hawks, on one occasion, had an argument with one of his vestrymen, in reference to the increase of his . Then you don't believe the Lord will feed the ravens young? said the ves-tryman. 'Oh yes, I do,' the doctor replied: but nothing is said about the young howks.

Communications were received in both Houses this morning, from the Young Men's Association of Milwaukee, inviting the members to visit that city and listen to an address on Friday evening by John B. The invitation was accepted by both Houses, and many members will undoubtedly avail themselves of the opportunity to hear this celebrated temperance advocate; more especially, as the committee appointed to secure a lecture from Mr. once upon the bench of the United Gough in the Assembly Chamber, report that he eaunot fill such an engagement. In the Senate a resolution was adopted directing the Committee on Benevolent Institutions to inquire whether the supplies for such are procured in open market or on contract, and to report as to the propriety of requiring all supplies to be purchased on contract let to the lowest hidder. A bill was passed amending the State printing law, and to provide for reletting the printing when contracts are nukept. It provides that the contractors and their guarantors shall fulfil their contract under a penalty of \$5,000, besides being liable for the damages incurred by the State on account of such non-performance. The present law contains ample provision for making delinquent contractors justly suffer, but it is alone honored in the breach and never in the observance as any other similar law will probably be.

Bills were introduced to provide for the establishment of a State Normal School, and for the purchase of Webster's dictionary for deficient school districts. . No more at present, from

YANKEE TRISTLE.

The Barroughs-Harris Tragedy. Hereto we have left for our Washington dispatches to chronicle the melancholy details of this domestic tragedy which has filled so many innocent hearts in our own city with poignant grief. There is little more to be added as a local reference to a case which will find its way to the journals of the land, unhappily not alone in its class of events, but a fresh and startling instance of crime and its consequences The principal actor in the latest act of the drama, which has brought swift doom to a seducer, is known to but few of our Chicago readers. Mary Harris is the daughter of highly respectable parents in Burlington, lowe. She is about twenty years of from which he has risen to be one of its age, represented to be lovely in person, refined in manners, and above all suspicion or reprouch until her unfortunate relations with her destroyer began at her own home some four years ago. She fell a victim to his deliberate wiles, and once in his power, hold fast to his promise of making her his She clung to him despite his desperate and foul attempts to shake her from him into the living hell that yawns for fallen womanhood. She instituted proceedings against him in one of our ourts for breach of promise, without othor hope than to make public her wrongs, for he had no means to respond in damages. When the last hope had faded of his making her amends, and he turned from her to fasten, as it has proven, his some months ago, revenge took the place of love in the heart of the deserted and ruined girl, and following him to Washington, she took his life. The case will speedily come before the Courts. The unfortunate girl has influential friends. She has the sympathy of the public sentiment, which reads no vengence too severe to overnocence, and until the laws of the land punish the seducer with death, there will be little sympathy when merited doom overtakes him at the hands of one his own act has qualified as the executioner of the penalty. WHAT A TOAD DID FOR A SCLDIER .- A friend connected with the United States Sanitary Commission relates for the Amer ican Agriculturist, the following incident which he witnessed, which exhibits Mr or Mrs. Toad in a new character: A num ber of wounded from the battle of Petersburg were lying in a hospital tent, among whom was a negro whose leg had been taken off. He was on a mattress on the ground. The weather being hot, the dressed stump of his leg was exposed and a swarm of flies were settling upon it. Pres ontly a large toad hopped into the tent and taking his station near the edge of the hed, began "gobbling" up the blue bottles on "double quick." The moment one slighted within six inches of the spot he would square himself for the attack. his eyes twinkling with excitement, and then with a flash of his tongue and a smack of his mouth, the unlucky insect would disappear. The boy was asleep when this commenced, but soon awoke, and was at first frightened at the "ugly toad" so near him, but our friend bade him be quiet, and pointed out the service the creature was rendering, when the negro and all present voted him a member of the Commission, with many thanks, and his open the skin. Whole No. of Democrats voting against amendment

Democratic vote against amendment..... It will thus be seen that, as represented in our present Congress, nineteen out of seventy-five Democrats are willing to abandon slavery as a plank in the creed of the Democratic party, and fifty-six are not. We presume this is not far from be ing a faithful criterion of the degree to which slavery still holds in subjection the so-called " Demogratic " party.

Mercanthe Integrity.—The Boston Journal says that, "Some thirty years ago a dry goods dealer in Washington street failed in business, but soon started again in another branch of trade in State street. Not finding his second enterprise profits ble, he applied for and secured a clerkship at one of our moneyed institutions, chief officers. He has been for some years paying the most needy of his early creditors, whose claims were outlawed long since. On Saturday last he was able to pay the last of his creditors the full amount of his indebtedness. Some of these persons had forgotten the debt; and were. equally surprised and gratified at such a noteworthy instance of mercantile integrity. The debts in this instance were not paid with funds gained by speculation or good fortune in business, but by systematic and honorable appropriation of a portion of a salary, not very large, to such a noble margosc."

American Skloters in Paris.—The Pars correspondent of the New York Times says the skating costumes this winter are very brilliant, and that in the "big thing on ice," Young America, as usual, carries off the palm. He adds:

On the Imperial skating pond-that is to say, the pond on which the Imperial family and their friends skate, and to which are invited the best skaters from other ponds—Miss D. Low, of Massachusetts, has been the lioness, and Mr. Marshal, bank-note engraver, from New York, the lion. Miss Low cuts her name with facility on the ice, which is a great feat for a fady in this country; and while she and Mr. Marshal perform their wonders, the Imperial party form a circle and look on in admiration. Mr. Commuc, Mr. Ross, Mrs. Ryer, and many other gentlemen and ladies, have "gone up head" for superior skating, and been admitted into the ranks of the select on the reserved lake."

bleeding and dying.

Mr. Charles Sherwood, the proprietor of the sheep, has been several years in se-lecting from the best flocks in the country, and has about one hundred choice Merinoes. The dogs entered his yard in the night, and wounded nearly sixty of them. Thirty are already dead, and many other are in a dying state. To stand and look n these sheep, and see the owner pointing them out, saying, that sheep cost me ten dollars; that sheep cost me difteen dollars; that sheep cost me twenty dollars, and so on, was heart-sickening, and enough to make one, wish that every dog in the, land was where he would kill no more sheep. It is very discouraging trying to raise sheep when once in three or four years the

losses by dogs amount to more than the profits. It is but four years since the same man lost heavily from the same cause. The dog law works very well as far as it goes. There are not so many dogs in the country as there were three years ago, and the dog tax makes up a small item of the loss; but it is not enough. It should be doubled. And then the loss of temper and good feeling should be taken into ac-

Mr. Sherwood is not the only person who has suffered in this town. It is estimated that five hundred dollars would not more than cover the losses sustained by dogs, and some action should be taken to bring the subject before the Legislature, which is now about to meet. Permit me to suggest that the Editor of the Farmer appropriate one leaf to the subject, leaving a blank to be filled up by subscribors, petitioning the Legislature for a more stringent protective law against dogs.

From the Hon. Thomas E. Florence. Washington, Jan. 1st, 1864.

Gentlemen:—Having stated it verbally to you. I have no less lation it writing the fact, that I experienced myrked benefit from your Hoodinad's German litters. During a long and tedions session of Congress, pressing and onerous duties nearly prostrated ma. A kind freed singuested the nan of the preparation I have named. I took like advice, and the result was improvement of health, remewed energy, and that particular ment of health, renewed energy, and that particular relief I so much needed and obtained. Others may be similarly advantaged if they desire to be. Truly your friend, THOMAS D. FLORENCE.

From John B. Withersham, Esq., firm of Withersham and Hutchinson, the celebrated manufacturers of Faucy Iron Works, 259 Combierrest. I am the recipiert from you of one of the greatest favors that can be conferred upon man viz, that of health. For many yours have I suffered from one of the most annoying and deblicating complaints that the human tamily can be affected with, Chronic Diagracia. the human isolay can be anceted with, checked Diarrhose.

During the long time I was suffering from this civease, I was attended by regular physicians, giving me but temporary relief. The cause seemed to reliable until I was induced to try floothand's German Bitters. After the tree of a lew bottles of that valuable medicine, the complaint appeared to be completely cradicated.

Lofen inwardly thank you for such a valuable specific set when I have an opportunity, chestfully re-

cated.
I often inwardly thank you for such a valuable specific, and, when I have an opportunity, cheerfully recommend it, with full confidence in its rollability.

Mestry, Jours d. Exans—Grademen: My mother-in-law has been so greatly benefited by pour Hoofland's Qerman Bitters that I concluded to rry it myself. I find it to be an invaluable toule, and unitediatingly recommend into all who are suffering from dyspepsia. I have had that disease in its most obstinate formal attribute—for many years, and year letters has given me case when overything else had failed.

Yours truly,

From the Hon. Jacob Broom. From the Holl, Steep Letonar, Pet. 7th, 1563.

Gentlemen:—In reply to your incluy as to the effect produced by the use of Hoofand's German Bluers In my family, I have no heritation. In saying that it has been highly benedicial. In one initiance, a case of numbers highly beneficial. In one in rance, a case of investigation of thirteen years standing, and which had secome very distressing, the use of one bettle gave decided relief, the second effecting a cave, and the third, t seems, has confirmed the cure, for there has been no symptoms of its return for the last six years. Philadelphia, December 30th, 1863.

Mesers, Jones & Econs—Gendemen: I have recently been laboring under the distressing iffects of indigestion, accompanied by a programation of the nervous system. Namesons remedies were recurrented by friends, and some of them tested hur without relief. Your Hoofland's German Bitters were recommended by persons who had tried them, and whose favorable mention of the Bitters induced murbo to try them. I must confess that I had an avariation to Patent Medicines, from the "thousand and one" quact "Bitters," whose only aim seems to be to pain of sweetened and drugged inguor upon the community, in a sly way; and the tendency of which, I faur, is to make many a confirmed demakent. Upon hearing that yours was really a medicinal preparation, I took it with happy effect. Yearction not only upon the stomach but upon the tendency system, was prompt and gratifying. I feel that I have derived great and permanent boundit from the use of a few bottles.

Very respectfully yours. W. D. SEIGRIED,

From the Rev. Thos. Winter, D. D., Pastor of Roxbury Baptist Church:

Dr. Jackson—Dear Sir: I feel it due to your excellent preparation, licofland's German Bitters, to add my testimony to the deserved reputation it has obtained. I have for years, at times, be in troubled with great disorder in my head and networs system. I was advised by a friend to try a bottle of your German Mittere. I did so, and have experienced great and unexpected relief; my health has been very materially bene-Lited. I confidently recommend the article where I meet with cases similar to my own, and have been assured by many of their good effects.

Respectfully yours,

SECOND WARD DRAFT MEETING .- The encolled men met pursuant to adjournment. Mr. Roberts on behalf of the committee appointed for the purpose of drafting bylaws, reported that the committee had met

but decided not to make a report, as things were so mixed up that it was impossible to do so. After the discussion of the feasibility

of various plans to save the Ward from draft, a resolution was introduced and passed to start a subscription at \$50 per man to raise a sufficient amount, none of which funds are to be used until enough is subscribed and paid in to clear the Ward entirely from the draft.

On motion of Mr. Ebbetts, P. H. Grant, A. D. Stoddard, George Kimbell, D. Ballou and William Booth Tere appointed a committee to receive enbacriptions for the yard fund.

On monon of John R. Bennett, S. C. Buraham, A. C. Bates and J. M. Bostwick were appointed a committee to procure subscription to the city scrip.

On motion, A. M. Thomson was elected Treasurer of this Ward; and the subscription committee were instructed to report to him every evening.

On motion of Capt. Putnum, it was

Resolved, That when it is decided to use the extra bounty money, a person proouring a substitute be allowed to draw

from the fund the same amount that a volunteer would draw. On motion the meeting adjourned to

meet at the Court Room, Friday evening, at 7 o'clock. John C. Spencer, Sec'y. By the above proceedings it will be

seen that the enrolled men of the Second Ward will o obliged to come promptly up to the mark or submit to a draft. A united and vigorous effort will save the Ward-apathy will ensure the turn of the wheel. Choose ye this day which it shall be, and come to the Court Room this even-

Dr. V. Clarence Price the Analytical Physician has now visited this city for three years. During this time he has built up a practice by no means insignificant, the benefits of which his patients can both cause and cure, and his system of treatment has developed in his numerous letters, show that he has not studied in vain. In every case that he has had in this city, where his treatment was adhered to, a complete cure has been effected where such a thing was possible, and there has been no single ease in which benefits were not derived. Dr. Price is a man to be relied on. We have had personal dealings with him for over three years, and found him true to his word in every way. His personal character is beyoud impeachment in any way and we have no hesitation in warmly recommending him to the public.

Those who desire to consult Dr. Price can do so on his next visit to Janesville, during Saturday and Sunday the 4th and 5th of February. Office at the Hvatt House.

Mr. Dorr.—I confess I have been quite skeptical in regard to the utility of washing machines, until we gave yours a trial. Having tested it throughly, we are fully prepard to say, unsolicited, that we regard it as a capital machine. The principle upon which it works is the true one—removing the dirt effectually without injuring the clothes in the slightest manner. My wife enderses it heartly as a labor-saving machine, and considers it truly a "Paragon." SWINDLING IN PETROLEUM OIL COMPANies.-Dr. J. G. Holland, the well known author, writes a very interesting letter from Erie, Pa., to the Springfield Republican, in which he reviews the whole petroleum "There is a splendid base for business

here, and there is opportunity for legiti-mate investments; but I beg all Eastern men who are tempted to invest in petro leum stocks to come here and see what they buy before they buy anything. The most of these stocks are good for nothing. Companies are formed and declare dividends which have not a single well on their premises. A tract of land is purchased, for, say \$50,000. A company is formed with a capital of a million dollars. dollars. It is accounted lucky, of course, if there is a well in actual operation on the premises, even if the product is small. It helps to sell the stock. Then the hold-ers rush east to sell their shares. A limited amount is put upon the market, and sold at a low rate, but enough to enable the holders to declare a dividend of one or two per cent. The dividends look in the paper like work, of course, and the shares go up. When at the proper inflation, the original owners sell out, and there is the last of the company. All these stock company operations are not like these, of course, but the probabilities are that if buyers of stock at the east could see exactly what they are buying, they would not buy more than a tenth part as much as they do now."

General Butler.

The Philadelphia North American comes to the rescue of General Butler in this wise: He captured Baltimore from rebel hands,

by the help of a single brigade of volunplan was being slowly worked up at Washington for its capture by a combined advance upon it in full force from three directions. Whatever others may think of this, we are inclined to believe that this, for that purpose that Magruder was in the vicinity. Butler placed the fortress in such a state of defence as to render assault foolish. He did more. Although his force suit before Justice Allison, brought by the was inadequate, he assumed the offensive, rebel to recover the value of a cow which and despite the failure of Big Bethel he he claimed he had left at home when he rendered signal service to our cause by his operations. Especially does he deserve

such Generals as McClellan, Buell, Porter, &c. His career in New Orleans was beity of New Orleans, and made the reconstruction of Louisiana as a loyal State a ceeded in outwitting Lee and Beauregard in his Bermuda Hundred campaign; but

Taking altogether his failures at Big Bethel, Bermuda Hundred and Wilmington, and comparing them with his achievements at Annapolis, Baltimore, New Orleans and elsewhere, we do not think his connection with this war has been an unfortunate one either for himself or his every man must come up to the scratch campaigns of Big Bethel and Bermuda er, Rosecrans, Foster, and other regular officers have been in isolated battles. Perhaps his term of usefulness may have passed. We think it has. The scientific generals who now head cur armies under-

stand war practically and theoretically.

But let us not, because we now have in which he reviews the whole petroleum business. We copy the following paragraph which is of interest to persons in this latitude who intend to invest in oil stocks;

"There is a splendid base for luminors."

"There is a splendid base for luminors."

"They had their construction." war. They had their opportunities, because the republic wanted their services. Their influence and example have proved more salutary in stimulating the regular officers than many of the latter are willing to admit. Hence we feel no rejoicing at the removal of Butler, even while we agree in its policy.

> CARE OF HENS IN WINTER.-Farmers, as a general rule, neglect their hens in winter. They are left to pick up what they can find about the barn-yard; if they get sufficient food, well; if not, no matter. This is cruel and decidedly unprofitable. If it will not pay to keep them in good condition, it will not pay to keep them at all. They should have a warm and clean place to roost in, and the farmer should see that they never suffer for lack of food. A little light grain of buckwheat, with a by a new method, and with remedies that are eminently zel, or other succulent food, will generally be paid by the eggs laid during the win-ter and the spring fourfold. Hens starved during the winter will not furnish many

The peace rumors continue, and we are inclined to believe that there is something n them. There certainly should be. Each side is tired of the cost and blood of a war which must be closed sometime, and can as well be now as a year hence. There is reason enough why Mr. Lincoln and Jeff. Davis should be anxious for peace. Mr. Lincoln must wish in his second term to be acknowledged by all the country, and have that country repair the damage it has done stored, slavery abolished, and the republic ter where they may be tending they will on the track of prosperity—he will win a

[From the Chattancoga Gazette.]

Some time last fall, a soldier belonging to the 3d Wisconsin battery, doing duty in the garrison in this city, married a wo-man living two miles from town, who already had a husband living, he being a rebel and a prisoner at Camp Chase, Ohio. The soldier went to Wisconsin during the month of October was mustered out of the service, and immediately returned here and went to his wife's to live. by a new method, and with remedies that are eminently successful in the above class of chronic diseases.

The thinking and unbiased portion of the community will appreciate the great advantage of a permanent and reliable institute for the cure of chronic diseases that usually baffle the skill of the general practitioner.

Catarrh, that great promoting cause of Consumption in the Northwest, always gives way upon application of the new remedies. Dr. Hale has never encountered a case of this disease he could not cure. The present season is vary favorable for applying proper remedies; delays are dangerous. Your case may be cured this month, not next, to-duy, not to-morrow.

All who are suffering from any of the diseases Dr. Hale makes a speciality in treating, should at least call and investigate the new system for themselves. No person of good sense and sound judgment will, without full and careful investigation, denounce as "humbug" that which claims to possess merit.

Dr. Hale takes pleasure in referring to the following responsible parties, citizens of Janewille, who can greak knowingly as to the efficacy of Dr. Hale's treatment, not to mention hundreds of others in the Northwest that have been cured:

New York, Feb. 2.—The World has an

editorial on the paper duty question, and looks upon the proposed action of the Sen-

ate as a swindle upon publishers. It re-fers to the action of the House and thinks the Senate should concur with the House in the proposed reduction. All the daily papers except the Journal of Commerce and News have editorials on the passage of the Constitutional amendment. The Herald thinks it prepares the

foundation for the speedy alliance of the North and South on the basis of the Monroe doctrine. The World has steadily opposed the measure, but does not manifest much regret at its passage. Other papers speak with full approval.

There is much excitement to-day owing o peace rumors. The Times has thus far believed no eace possible from Blair's mission. To-

day it thinks the rebel Commissioners are not coming to Washington with any ope of treating for separation. The World says all peace missions on oth sides are sheer nonsense, and hopes for no peace except by armies. The World withholds its opinion until the facts are

Dispatch of the 30th says: "We think it certain that General Breckenridge has been appointed Secretary of War, though his appointment has not yet been presented to the Senate for approval. It is said that Bruce, of Kentucky, is to be Commis-sary General. Should Congress, as it probably will, pass a law giving the market value for all property taken for Gov-ernment use, the labors of the Commissary Department will be immeasurably decreased. There will be then no necessity redundancy of currency that would otherwise be created by the immense sums necessarily diffused by the Government. The Terms of Peace.

We take it for granted that the statements of the telegraph are true, and that A. H. Stephens, R. M. T. Hunter and Judge Campbell are already within our lines on a mission of peace. Stephens is one of the ablest men in the Confederacy and opposed the ordinance of secession to the utmost of his ability; but when his State of Georgia was swept away from her loyal moorings by the crazy theory of State rights, he went with her, after entering his most solemn protest. Hunter is one of the F. F. V.'s, and as much of a gentleman as it is possible for a traitor to be. Judge Campbell was once upon the bench of the United State Supreme Court, and resisted secession with Stephens until resistance was of no avail, when he resigned his seat and went with his State. These men are now all prominent lights in the so-called confederacy. They want peace, and come with a semi-official endorsement from the rebel chief. What terms have they to offer which Mr. Lincoln and Congress can Legislature of his State, vesterday ratified accept? Are they ready to disband the rebel armies and return to their allegience jority. This announcement was received under the old constitution? Is Jeff, Davis | with hearty applause, and regrets were willing to abdicate and submit to the rule of Abraham Lincoln? Are the rebels ready to abandon everything which they | tion on the amendment as that of Illinois. have suffered so much to secure and for which they have so stubbornly fought these four long years? Nobody believes cors and directors of railroad companies they come for the purpose of making any in this State shall be actual residents theresuch propositions as these. The great mass of the Southern people no doubt are for licensing dogs and the protection of heartily sick and tired of this unholy and unnatural strife; but their wary leaders whose and to provide for a pension to the wives necks are in danger, cherish no desire to and children of soldiers who die in the serhave peace unless it comes with the recog- vice, and to amend the revised statutes renition of their independence. Did these commissioners come from the people, or from the separate States to arrange terms of peace and reconstruction, then there would be some slight grounds for hoping that the visit might eventuate in success; wing of the great arch traitor himself, and it is improbable to suppose they have any terms whatever to propose which would be

Richmond. On the other hand, what concessions have Mr. Lincoln and the Congress of the United States to make that would be satisfactory to those who inaugurated this rebellion and have given tone to public opinion in the South? Can they acknowledge the independence of the Confederacy? Neither Mr. Lincoln, nor any member of his cabinet, nor any Union man in Congress has ever seriously entertained such a suicidal thought for one moment. What sacrifices have we not made and are daily and hourly making in order to maintain the integrity of our Government? And if these peace commissioners base their negotiations upon the monstrous proposition of disunion, the conference may as well end with an emphatic NO. Neither can Mr. Lincoln consent to withdraw his Emancipation Proclamation and remand back to slavery those set free by it, even for the sake of the "Union as it was." That is as utterly impossible as to consent to a dissolution of

We cannot see then, what good is to be believed that the rebels are quite ready yet to do so, and we pray that our Government may never be brought to that most humiliating condition.

The Ruling Passion Strong' in Death.

No one who is acquainted with the political antecedents of C. A. Eldridge, member of Congress from the Fond du Lac district, will be surprised that he should record his vote against the constitutional to keep up his consistancy, he enters his solemn protest against the repeal of a system that has done so much to keep alive sentiments and opinions, but he faithfully represented the wishes of a large majority of the district who sent him to Washington. A district so blinded to the rapid progress of the times and to the living issues of the hour as to give such a man A. Scott Sloan, might well shudder at the tal principle of the Constitution; and his vant." As one of Milton's devils said of a similar case, so be it said of Eldridge and those he represents:

"Fit robject and fit head." As for James S. Brown, of Milwaukee, the other Wisconsin representative who fell upon slavery's neck and kissed it as it was about to pass away forever, us we hope, there is less excuse for him. The people of his district have expressed them. selves in an emphatic voice against just such a vote as he cast. Unlike Eldridge, Brown cannot fall back upon his home endorsement to justify his recorded preference for a cruel and barbaric institution. And the loyal people of Wisconsin will rejoice that Mr. Brown soon retires to the and the same time.

Tue Rev. Dr. Hawks, on one occasion, had an argument with one of his vestrymen, in reference to the increase of his salary. 'Then you don't believe the Lord will feed the ravens young? said the vestryman. 'Oh yes, I do,' the doctor replied: but nothing is said about the young

FEBRUARY, 2D, 1865. Editors Gazette:-The General Bounty Bill has become a law and is published in this evening's Journal. Each House has ordered one thousand copies for distribution among the members to send to their constituents.

Communications were received in both Houses this morning, from the Young Men's Association of Milwaukee, inviting the members to visit that city and listen to an address on Friday evening by John B. WHAT A TOAD DID FOR A SOLDIER .- A friend connected with the United States Sanitary Commission relates for the American Agriculturist, the following incident which he witnessed, which exhibits Mr. or Mrs. Toad in a new character: A number of wounded from the battle of Peters burg were lying in a hospital tent, among whom was a negro whose leg had been taken off. He was on a mattress on the ground. The weather being hot, the dressed stump of his leg was exposed and a swarm of flies were settling upon it. Presently a large toad hopped into the tent, and taking his station near the edge of shades of private life, where he can weep in silence over the downfall of American bottles on "double quick." The moment one alighted within six inches of the spot he would square himself for the attack, his eyes twinkling with excitement, and then with a flash of his tongue and a smack of his mouth, the unlucky insect would disappear. The boy was asleer when this commenced, but soon awoke, and was at first frightened at the "ugly toad" so near him, but our friend bade him be quiet, and pointed out the service the creature was rendering, when the negro and all present voted him a member of the Commission, with many thanks, and his kindred were at once in very high favor oods Dealers.

New Bedford, Mass., Nov. 34, 1533.

Draft Sir:—I have been afflicted many years with severe prostrating cramps in my limbs, cold feet and hands, and a general disordered system. Physicians and medicine failed to relieve me. Some friends in New York, who were using Plantation Bitters, prevailed upon me to try them. I commenced with a small wine-glassfull after dinner. Feeling better by degrees, in a few days I was astonished to find the coldness and cramps had entirely left me. and I could sleep the night through, which I had not done for years. I feel like another belag. My appetite and strength have also greatly improved by the use of the Plantation Bitters.

Respectfully,

JUDITH RUSSELL.

If the ladies of American but knew what thousands of them are constantly relating to us, we candidly belleve one half of the weakness, prostrution and distress experienced by them would vanish. James Marsh, Esq., of 159 West 14th St., N. Y., says, "he has three children, the first two are weak and puny, his wife having been unable to nurse or attend them, but that she has taken Plantation Bitters for the last two years, and has a child now eighteen months old which she has nursed and reared herself, and both are hearty, savey and well. The article is invaluable to mothers,

Such evidence might be continued for a volume The best evidence is to try them. They speak for themselves. Persons of sedentary babits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constips tion, diabetes, &c., will find speedy relief through these? Bitters. They are now sold by all respectable dealers throug

out the habitable globe. Be sure each bottle has our private United States Stamp over the top, and take none other. We do not sell it in any other way. Any person pretending to sell Plantation Bitters by the gallou is an imposter, and should be immediately reported to us. Beware of refilled bottles; examine and iste and grancy see that the stamp has not been mutilisted.

(From the Wisconsin Farmer) Ms. Editós:-I wish all the dogs were dead. And you would wish the same if you had stood where I did, a few days

ago, and seen fifty or sixty be autiful sheep bleeding and dying.

Mr. Charles Sherwood, the proprietor of the sheep, has been several years in se-lecting from the best flocks in the country. and has about one hundred choice Meri noes. The dogs entered his yard in the night, and wounded nearly sixty of them. hirty are already dead, and many others are in a dying state. To stand and look on these sheep, and see the owner pointing hem out, saying, that sheep cost me ten dollars; that sheep cost me fifteen dollars; that sheep cost me twenty dollars, and so on, was heart-sickening, and enough to nake one wish that every dog in the land was where he would kill no more sheen.

It is very discouraging trying to raise sheep when once in three or four years the losses by dogs amount to more than the profits. It is but four years since the same man lost heavily from the same cause.

The dog law works very well as far as it goes. There are not so many dogs in the country as there were three years ago, and the dog tax makes up a small item of the loss; but it is not enough. It should be doubled. And then the loss of temper and good feeling should be taken into ac-

Mr. Sherwood is not the only person who has suffered in this town. It is estimated that five hundred dollars would not more than cover the losses sustained by dogs, and some action should be taken to bring the subject before the Legislature, which is now about to meet. Permit me to suggest that the Editor of the Farmer appropriate one leaf to the subject, leaving blank to be filled up by subscribers, petitioning the Legislature for a more stringent protective law against dogs.

SECOND WARD DRAFT MEETING .- The enrolled men met pursuant to adjournment Mr. Roberts on behalf of the committee appointed for the purpose of drafting bylaws, reported that the committee had met but decided not to make a report, as things

were so mixed up that it was impossible to do so. After the discussion of the feasibility of various plans to save the Ward from draft, a resolution was introduced and passed to start a subscription at \$50 per

man to raise a sufficient amount, none of which funds are to be used until enough is subscribed and paid in to clear the Ward entirely from the draft. On motion of Mr. Ebbetts, P. H. G. abt.

A. D. Stoddard, George Kimbell, D. Ballou and William Booth Tere appointed a committee to receive subscriptions for the ward fund.

On monon of John R. Bennett, S. C. Burnham, A.C. Bates and J. M. Bostwick were appointed a committee to procure

subscription to the city scrip. On motion, A. M. Thomson was elected

Treasurer of this Ward; and the subscription committee were instructed to report to him every evening.

On motion of Capt. Putnam, it was Resolved, That when it is decided to use the extra bounty money, a person procuring a substitute be allowed to draw from the fund the same amount that a

volunteer would draw. On motion the meeting adjourned to

meet at the Court Room, Friday evening, at To'clock. John C. Spencen, See'y. By the above proceedings it will be

From Rev. G. W. Lamerone:

Mr. Bory—I content I have been quite skeptical in regard to the utility of washing machines, until we gave yours a trail. Having tested it thereighly, we are fully prepard to say, unsolicited, that we regard it as a capital machine. The principle upon which it works is the true one—removing the dirt effectually without injuring the clothes in the slightest manner. My wite endorses it heartily as a habor-saving machine, and considers it truly a "Parazon." With "Doty's Paragon Clothes Washer," and the "Universal Clothes Wringer," washing day is no longer dreaded as in days of yore.

JAMESVILLE, Nov. 11th, 1861.

Mester, Dody Bess., " there had in use one of your Washing Machines since May last. We have triedfoller inventions, but they have treatibly proved worthless, after a few weeks they. Yours is the only invention that has stood a satisfactory test in my family. It works admiredly, and is a great labor saving mechanic; while in point of economy it has no equal. It has more than saved its cost already in the disnifabled wear of clothing, as compared with any other process of washing with which I am familiar. No family can well afford to be withent one Yours truly.
